4) To reduce the incidence of preventible diseases which form the bulk of prevalent diseases and cause of mortality, it is necessary that the sanitation of the town should be maintained well The Sanitary Inspector is trained for this particular purpose It has been the experience, that when general cleanliness of town is looked after well the morbidity rates fall down as it is in the case of areas where the Assistant Sanitary Inspectors are entirely meant for the Public Health work Health of towns can be improved to a very great extent if the Assistant Sanitary Inspectors give undivided attention to the Public Health work instead of making it a subsidiary work Besides after the introduction of the Mysore Public Health Act 1944 their responsibility and work has become more I am of the opinion that Assistant Sanitary Inspectors should be employed mainly for the Public Health work I may suggest that in this connection as this subject matter may have to be considered with other minor or town municipalities that a Revenue Inspector may be appointed for the purpose of collecting Revenue ~~xxxxxxxxx~~ one for three or four municipalities that are close together. so that the cost of maintaining the Revenue Inspector may be reduced to the minimum for the Municipality

be aimed at but funds have not permitted
as many of the Municipalities have not got
sufficient funds at their disposal to
employ separate Sanitary Inspectors
for this work etc. until their financial
conditions improve, only a minimum establish
can be maintained to attend to all sanitary

OFFICE OF THE DEPUTY COMMISSIONER
Bangalore District,
Dated, Bangalore, 31st March 1 9 4 4

From

Mahomed Ismail Sheriff, Esq , B A ,
Deputy Commissioner,
Bangalore District

BEN & P SECRETARIAT 6312 5 APR 1944 L S G BRANCH

To

C Narayanaswamy Naidu, Esq , B A , B L ,
Secretary to the Government of Mysore,
Law Department, Bangalore

Sir,

I have the honour to state that the Municipal Councils of Nelamangala, Hoskote, and Sarjapur in this District have resolved for the appointment of Assistant Sanitary Inspectors to look after the Sanitation and public Health of the Town and also to entrust the collection of the Municipal Taxes etc In respect of the Nelamangala Municipality, there was one Sanitary Maistry till now, and he has been retired from service since 6th March 1944 and the post is proposed to be filled up by a trained Assistant Sanitary Inspector In respect of Hoskote Town Municipality, there was one Sanitary Maistry, as per sanctioned scale of the Municipality The post remains vacant consequent to the transfer of the incumbent about 1½ years back As this Municipality has been converted into a Town Municipality from 1st January '44, it is imperative that there should be an Assistant Sanitary Inspector

2) As regards Sarjapur Minor Municipality, there is no sanitary staff in the sanctioned scale except a conservancy daffedar on Rs 12/- per month There is also no separate staff for collection work As a result, the sanitation of the Town is much neglected and the arrears have increased to more than Rs 5,000/- The finances of the Municipality do not admit of having separate staff for both In these circumstances, the Municipal Council have resolved

for the appointment of an Assistant Sanitary Inspector to whom collection work will also be entrusted -------

3) I therefore request that sanction of Government may be kindly obtained for the above appointments I have -- requested the Director of Public Health to post duly qualified hands to these Municipalities immediately in anticipation of Government sanction in view of improving the -- collections which have very much slackened owing to the absence of staff

I have the honour to be,
Sir,
Your most obedient servant
